Education

2nd year Information Processing Science student (Computer Science) at University of Oulu

High school at Oulu's normaalikoulu 2018-2021

Profile

I am calm, hard working and social. In my free time I play football. I easily get along with different people and have experience working in teams. I am highly motivated to learn and expand my skills. I am interested in software development both writing and testing software. I am curious to learn software design and integration processes.

Coding skills

- Most confident in Java, with experience of data structures and developing larger projects.
- Familiar with C, with the ability to write simple programs and good understanding of the fundamentals.
- SQL, with the ability to create, manipulate, and query databases using standard commands and operations.
- Skilled in unit testing and knowledgeable in both white-box and black-box testing approaches.
