## Education

2nd year Information Processing Science  
student at University of Oulu

High school at Oulu's normaalikoulu 2018-  
2021

## Profile

I am calm, conscientious and social. In my free time I play football. I easily get along with different people and have experience working in teams. I am highly motivated to learn and expand my skills. I am intressed in software development both building and testing software. Also, I hold curiosity in software planning and integration processes.

## Coding skills

- Most confident in Java, with experience with data structures and developing larger projects.
- Familiar with C, with the ability to write simple programs and good understanding of the fundamentals.
- SQL, with the ability to create, manipulate, and query databases using standard commands and operations.
- Skilled in unit testing and knowledgeable in both white-box and black-box testing approaches.
